

# Faculty Development Program

## For MedStar SiTEL's future partners in simulation training & multimodality education

This course is intended for MedStar associates who want to use the resources available at MedStar Health's Simulation Training & Education Lab (MedStar SiTEL) to design and conduct simulation education programs, and to collaborate with our service teams in education development.

The Faculty Development program is a live interactive one day course that includes:

- Education processes including job aides
- Project management in educational program development
- Defining roles and responsibilities in SiTEL/faculty collaborations
- Essentials of simulation training (design, execution, debriefing)

This CME activity is a one day course that is held every 6 months in the Spring and Fall.

Upcoming dates will be posted on [www.SiTELMs.org](http://www.SiTELMs.org) as they are scheduled.

- Cost is FREE and lunch will be provided to participants

Two locations and dates to choose from:

### **Washington DC Course**

MedStar SiTEL Clinical Simulation Center, DC  
4000 Connecticut Avenue, N.W., Suite 1K  
Intelsat Building  
Washington, DC 20008

### **Baltimore Course**

SiTEL Clinical Simulation Center, Baltimore  
2990 South Hanover Street, Suite 108  
Life Resource Center (across from MedStar Harbor Hospital)  
Baltimore, Maryland 21225

**Seating Limited - Register on [www.SiTELMs.org](http://www.SiTELMs.org) search "Faculty Development"**
